PREFATORY NOTE

The *READERS' GUIDE TO PERIODICAL LITERATURE* is a cumulative author subject index to periodicals of general interest published in the United States.

The main body of the Index consists of subject and author entries to periodical articles arranged in one alphabet. In addition there is a listing of citations to book reviews following the main body of the Index.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advises the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years.

While the responsibility for all indexing and editorial decisions rests with The H. W. Wilson Company, every effort is made by the Company to follow the recommendations of the Committee and the subscribers to a given periodical index.

Suggestions for addition or deletion of titles should be brought to the attention of The H. W. Wilson Company, 950 University Avenue, Bronx, N.Y. 10452.

This volume includes indexing for periodicals dated January 1, 1986 to December 31, 1986. It supersedes the paper issues of Readers' Guide for March 10, 1986 to February 1987.

SUGGESTIONS FOR THE USE OF THE READERS' GUIDE TO PERIODICAL LITERATURE

Arrangement

Authors and subjects are arranged in one alphabet. Under authors and subjects, titles are also arranged in alphabetical order by the first word, initial articles being disregarded. Under personal names titles *by* an author precede those *about* him. Subdivisions of a subject are arranged alphabetically under the subject. Geographical subheads follow the other subdivisions in a separate alphabet.

Author Entries

Articles are indexed under the last name of the author, with the exception that author entries may be omitted for staff writers. The author's name always appears as part of the citation under the subject entry.

Ballet Reviews

Ballet reviews are indexed under the heading "Ballet reviews—Single works" with a *see* reference from the title of the work. Reviews are also indexed under the name of the choreographer.

Book Reviews

For citations to reviews of individual books, see book review section following the main body of the Index.

Cross-References

See references are made from variant forms of subject headings and personal names to the form used in READERS' GUIDE.

See also references are made from a subject to related subjects under which additional material may be found.

Dance Reviews

Modern dance reviews are indexed under the heading "Dance reviews—Single works" with a *see* reference from the title of the work. Reviews are also indexed under the name of the choreographer.

Fiction

Fiction is indexed under the author's name; titles are listed under the headings "Fiction—Single works" and "Science fiction— Single works" with a *see* reference to the author's name.

Motion Picture Reviews

Motion picture reviews are indexed under the heading "Motion picture reviews—Single works" with a *see* reference from the title of the film. Reviews are also indexed under the name of the director.

Musicals, Revues, etc.

Musicals, revues, etc. are indexed under the heading "Musicals, revues, etc.—Reviews—Single works" with a *see* reference from the title of the work.

Videodisc and Videotape Reviews

Videodisc and Videotape reviews are indexed under the headings "Videodisc reviews—Single works" and "Videotape reviews—Single works." No title references are made.

For those unfamiliar with forms of reference used in the entries, the following explanation is given.

Sample subject entry:

Bicycle racing
Wheels of fortune [women's team road racing] S. Hollandsworth. il *Women's Sports Fitness* 8:36-9+ Jl '86

Explanation:

An article on the subject **Bicycle racing** entitled "Wheels of fortune," by Skip Hollandsworth, will be found, with illustrations, in the periodical *Women's Sports & Fitness*, volume 8, pages 36-39 (continued on later pages of the same issue) in the July 1986 issue. A title enhancement, "women's team road racing" has been added by the indexer to clarify the meaning of the title. Square brackets are used to indicate these editorial interpolations.

Sample name entry:

Schlesinger, Arthur M., 1917-
The challenge of change. il *N Y Times Mag* p20-21 Jl 27 '86

about

Report on the republic. P. S. Prescott. il por *Newsweek* 108:98+ O 27 '86

Explanation:
